

CEMIG
RESULTS 1Q2018

Certain statements and estimates in this material may represent expectations about future events or results, which are subject to risks and uncertainties, which may be known or unknown. There is no guarantee that the events or results will take place as referred to in these expectations.

These expectations are based on the present assumptions and analyses from the point of view of our management, in accordance with their experience and other factors such as the macroeconomic environment, and market conditions in the electricity sector; and on our expectations for future results, many of which are not under our control.

Important factors that could lead to significant differences between actual results and the projections about future events or results include our business strategy, Brazilian and international economic conditions, technology, our financial strategy, changes in the electricity sector, hydrological conditions, conditions in the financial and energy markets, uncertainty on our results from future operations, plans and objectives, and other factors. Because of these and other factors, our real results may differ significantly from those indicated in or implied by such statements.

The information and opinions herein should not be understood as a recommendation to potential investors, and no investment decision should be based on the veracity, currentness or completeness of this information or these opinions. None of our professionals nor any of their related parties or representatives shall have any liability for any losses that may result from the use of the content of this presentation.

To evaluate the risks and uncertainties as they relate to Cemig, and to obtain additional information about factors that could give rise to different results from those estimated by Cemig, please consult the section on Risk Factors included in the Reference Form filed with the Brazilian Securities Commission – CVM – and in the 20-F form filed with the U.S. Securities and Exchange Commission – SEC.

In this material, financial amounts are in **R\$ million** (R\$ mn) unless otherwise stated.
Financial data reflect the adoption of IFRS.

Highlights of consolidated results

- 1Q18 Net profit R\$ 465 million – up 35.6% YoY
- Operational cash flow (Ebitda) over R\$ 1 billion
- Improved operational efficiency
 - PMSO expenses down R\$ 49mn YoY
- Borrowing costs down R\$ 171 million on: reduction of debt, and lower Selic rate
- Equity gain R\$ 57 mn in 1Q18
- Market recognizes improvement in credit quality
 - Fitch upgraded Brazilian rating three notches – to investment grade – and upgraded global rating one notch
 - S&P: upgraded one notch on Brazilian scale (investment grade)
- Focus on the execution of the divestment program

Change of Net debt- increase of 35.9%

- Greater operational efficiency translates into gain for Cemig group
 - Adaption of workforce provides gain of R\$ 49 million
- Borrowing costs down R\$ 171 million due to reduction of debt and fall in the Selic rate
- Equity gain in investees positive at R\$ 57 million

Total energy billed Cemig D

Market Cemig GT

➤ Cemig D: Total energy billed – up 3.0% vs. 1Q17

- Total energy transported (Free Clients in Cemig D's concession area) – up 8.5%.
- Sales to final consumers down 0.8%

➤ Cemig GT continues to serve effectively the same market, even with the reduction in total supply available to it with the deduction of the Jaguará, Miranda and Volta Grande hydroelectric plants (\cong 700 MW average – or \cong 30% of Cemig GT's total power offtake guarantee of 1Q17)

Consolidated operational expenses – 1Q18 vs. 1Q17

- Improved operational efficiency reduces PMSO expenses¹
 - Expenses on personnel R\$ 50 mn lower – result of voluntary retirement plans
 - New voluntary retirement plan, accepted by 175 employees: estimated expense of R\$ 28 mn to be posted in 2Q18
- Provisions for employment-law cases R\$ 46 million lower
- Provisions for losses on investments
 - Light – provision R\$ 19 mn higher in 1Q18 than 1Q17 – balance is now R\$ 542 mn
 - SAAG – provision R\$ 43 mn lower in 1Q18 than 1Q17 – balance is now R\$ 316 mn

Change in consolidated operational expenses – 1Q18/1Q17

1 PMSO = Personnel, Materials, Outsourced services and Other expenses

Cemig GT – 1Q18 results

- Net revenue reflects reduction of ~30% in total Offtake Guarantee level due to exclusion of Jaguará, Miranda and Volta Grande hydro plants (\cong 700 MW++average):
 - Gross revenue from supply, however, fell by only R\$ 40 million (2.54%)
 - Average price up 1.3% – from R\$ 230 to R\$ 233 / MWh
 - Volume of energy sold slightly lower YoY (down 4.0%)
 - Transactions on CCEE (Power Trading Exchange) R\$ 98 mn lower
- Expenses on PMSO* R\$ 18.8 mn lower – mainly due to voluntary retirement plans of prior years.
- Borrowing costs R\$ 101 million lower in 1Q18 than 1Q17, due to reduction of debt and lower Selic rate

Cemig D – 1Q18 results

- Consumption in Cemig D's concession area:
 - Volume distributed: 3.0% higher YoY
 - Captive market: 0.8% lower
 - Supply transported: 8.5% higher
- Cemig D's tariff adjustment: average rate charged to clients reduced by 10.66%, and TUSD charge reduced 40%, for the 2017-18 period
- Expenses on PMSO* R\$ 19.4 mn lower – mainly due to voluntary retirement plans of prior years
- Borrowing costs R\$ 58 million lower in 1Q18 than 1Q17, due to reduction of debt and lower Selic rate.

* PMSO = Personnel, Materials, Outsourced services and Other expenses
