### MARKET ANNOUNCEMENT

#### **Cemig selected for inclusion in 2019/2020 Dow Jones Sustainability Index**

As part of its commitment to best corporate governance practices, **CEMIG** (“*Companhia Energética de Minas Gerais*”), listed and traded in São Paulo, New York and Madrid stock exchanges, hereby reports to its stockholders and the market as follows:

Cemig has been selected for inclusion in the portfolio of the 2018–2019 Dow Jones Sustainability World Index (the "DJSI World"). Cemig has now been included in the DJSI World for 20 years, since the index was created in 1999.

Cemig remains the only non-European electricity company to be included in the index, which selected only 8 electricity companies worldwide from among 77 evaluated-companies.

DJSI World comprises the shares of the world's largest companies that in their different economic sectors stand out for their performance in sustainability and their adaptation to market trends, capable of creating medium- and long-term value for shareholders. The composition of the index is renewed annually, becoming a global benchmark for investors and international financial agencies that rely on this index for decision-making in socially responsible investments. The new composition of the DJSI World comprises 318 companies in 27 countries, selected from among 2,296 companies from 58 sectors.

The companies are evaluated using a questionnaire and public information. The selection criteria are conducted by RobecoSAM AG, a company specialized in asset management and offer of sustainable investment-related products and services. The entire process is audited by Deloitte.

Cemig’s inclusion in this index for 20 consecutive years is a continuing reflection of its determination to maintain its sustainable growth, dedicated to creation of value for its stockholders, employees and suppliers, and to the well-being of society
