MARKET NOTICE

Brazil Electricity Distributors’ Award for improvement of performance

Cemig (*Companhia Energética de Minas Gerais* – listed and traded in São Paulo, New York and Madrid), **informs** the CVM (Brazilian Securities Commission), the São Paulo stock exchange (B3) and the market:

Cemig was second-placed in the nationwide category “Performance Improvement” at the Brazilian Electricity Distributors’ Association (Abradee) Awards, given at an online ceremony on August 26, 2021.

Abradee has been holding these awards for more than 20 years. They aim to orient and enhance the management models of Brazilian electricity distribution concession holders, with a view to continuous improvement of the sector.

‘Performance Improvement’ (*Evolução do Desempenho*) is a nationwide category recognizing concession holders that achieve the highest rate of improvement in their performance indices – measured as the ratio of total score in the general category in the year to the weighted average of total scores in the general category in the three last prior annual Abradee awards.

Cemig believes this year’s award is the result of its efforts to achieve excellence in distribution service, improve quality of customer service, and as a result increase customer satisfaction, while its financial results continue to grow.

Belo Horizonte, September 1, 2021
