THE COMPANY

Cemig Distribuição S.A. ('Cemig D' or 'the Company'), a Brazilian corporation registered with the Brazilian

Securities Commission (Comissão de Valores Mobiliários, or CVM), and with the Brazilian Register of Corporate

Taxpayers (CNPJ) under No. 06.981.180/0001-16, is a wholly-owned subsidiary of Companhia Energética de

Minas Gerais - Cemig. It was incorporated on September 8, 2004, and began operating on January 1, 2005,

pursuant to the process of separation of activities ('unbundling') of Cemig. Its shares are not traded on any

exchange. It is domiciled in Brazil, with head office at Avenida Barbacena 1200, Belo Horizonte, Minas Gerais.

Its corporate objects are: To study, plan, project, build and commercially operate systems of distribution and sale

of electricity and related services for which concessions are granted to it under any form of law.

Cemig D has a concession area of 567,478km², covering approximately 97% of the Brazilian state of Minas Gerais,

serving 9,006,920 consumers, as of December 31, 2014 (data not reviewed by external auditors).

The company holds the concession for commercial operation of its activities for 20 years, up to February 18,

2016, and qualifies as subject to the terms of Provisional Measure 579/2012 (converted into Law 12783 in

January 2013). On October 14, 2012 the company requested extension of the related concession contract. On

January 17, 2014 the National Electricity Agency, Aneel, sent to the Company Official Circular Letter 01/2014-

DR/ANEEL stating that it was analyzing the request for extension of the concession, and that the final decision on

the request rested with the Concession-granting power. Up to the date of approval of these financial statements,

the terms of the extension are not known to the Company's management. Management expects that the

Concession-granting power will grant this request for extension, on conditions similar to the present ones, and

for a period of 30 years.

On December 31, 2012 the Company's Current liabilities exceeded its Current assets by R\$ 758,715. This excess was principally due to the high outflow of cash scheduled for the short term for payment of loans and financings. Management monitors the Company's cash flow, and for this purpose is assessing measures to adjust the present situation of its financial assets and liabilities to the levels considered appropriate to meet its needs, including renegotiations of financings, and new transactions planned for 2015 to raise funds in the market to comply with its short-term obligations.
