Companhia Energética de Minas Gerais – Cemig was selected for the seventh consecutive year for inclusion in the portfolio of the Dow Jones Sustainability World Indexes (DJSI World) for the period 2006/2007.

The new composition of the DJSI features 318 companies from 24 countries. The survey for selecting the successful companies involved 2,500 companies from 58 industrial sectors, and the entire process was audited by PriceWaterhouseCoopers.

The DJSI World comprises stocks of companies of recognized corporate sustainability, capable of creating value for stockholders in the long term, successfully taking advantage of opportunities and administering risks related to economic, environmental and social factors. The selection considers not only financial performance, but mainly the quality and continued improvement in the management of the Company, which should integrate environmental and social actions as a form of sustainability in the long term.

Since its creation in 1999, DJSI World has become an important reference for investors and administrators of foreign funds, which base themselves on its performance when taking investment decisions.

The consecutive participation of Cemig in the DJSI World reflects the company's commitment to conducting its activities in accordance with the principles of sustainable development, including corporate governance practices, respecting the environment and the well being of society.
