MATERIAL FACT

Cybersecurity incident involving the exposure of personal data

COMPANHIA ENERGÉTICA DE MINAS GERAIS – CEMIG (“CEMIG”), a publicly held company with shares traded on the stock exchanges of São Paulo and New York, pursuant to CVM Resolution 44/2021, of 08/23/2021, hereby informs the Brazilian Securities and Exchange Commission (“CVM”), B3 S.A. – Brasil, Bolsa, Balcão (“B3”), and the market in general that it has identified the occurrence of a cybersecurity incident that resulted in the exposure of personal data of a portion of its customer base, including name, parents' names, individual taxpayer registry (CPF), address, email address, telephone number, and bill amount.

The cybersecurity incident did not impact the Company's operations, and the unauthorized access to the database was blocked upon detection. A detailed technical investigation is underway to determine the extent of the incident and identify the data subjects whose personal data was exposed. The incident was promptly reported to the Brazilian National Data Protection Authority (ANPD), the Brazilian Electricity Regulatory Agency (Aneel), and the police authorities, subject to the confidentiality required to preserve the integrity of the investigations. To date, approximately 135,000 customers whose data were exposed have been identified. The Company has individually notified the customers identified as affected, providing specific guidance on security measures and prevention against potential fraud attempts.

CEMIG reiterates its commitment to the protection of personal data, cooperation with the authorities, and transparency with its stakeholders, and will keep the market and its customers informed of any relevant developments related to this incident, pursuant to CVM regulations and applicable legislation.

Belo Horizonte, May 14, 2026.

Andrea Marques de Almeida
Vice President of Finance and Investor Relations
