Some statements and estimates in this material may represent expectations about future events or results that involve risks and uncertainties known and unknown. There is no guarantee that the events or results referred to in these expectations will occur.

These expectations are based on present assumptions and analyses from the viewpoint of our management, based on their experience, the macroeconomic environment, market conditions in the energy sector and our expected future results, many of which are not under CEMIG's control.

Important factors that can lead to significant differences between actual results and projections about future events or results include CEMIG's business strategy, Brazilian and international economic conditions, technology, CEMIG's financial strategy, changes in the energy sector, hydrological conditions, conditions in the financial markets, uncertainty regarding future results of operations, plans and objectives as well as other factors. Because of these and other factors, our actual results may differ significantly from those indicated in or implied by these statements.

The information and opinions contained herein should not be understood as a recommendation to potential investors and no investment decision should be based on the truthfulness, or completeness of this information or these opinions as of the date hereof. None of CEMIG's professionals nor any of their related parties or representatives shall have any liability for any losses that may result from the use of the content of this presentation.

To evaluate the risks and uncertainties as they relate to CEMIG, and to obtain additional information about factors that could lead to different results from those estimated by CEMIG, please consult the section on Risk Factors included in our Formulário de Referência filed with the Brazilian Securities Commission – CVM, and in Form 20-F filed with the U.S. Securities and Exchange Commission – SEC.

In this material, financial amounts are in R\$ million (R\$ mn) unless otherwise stated. Financial data reflect the adoption of IFRS.

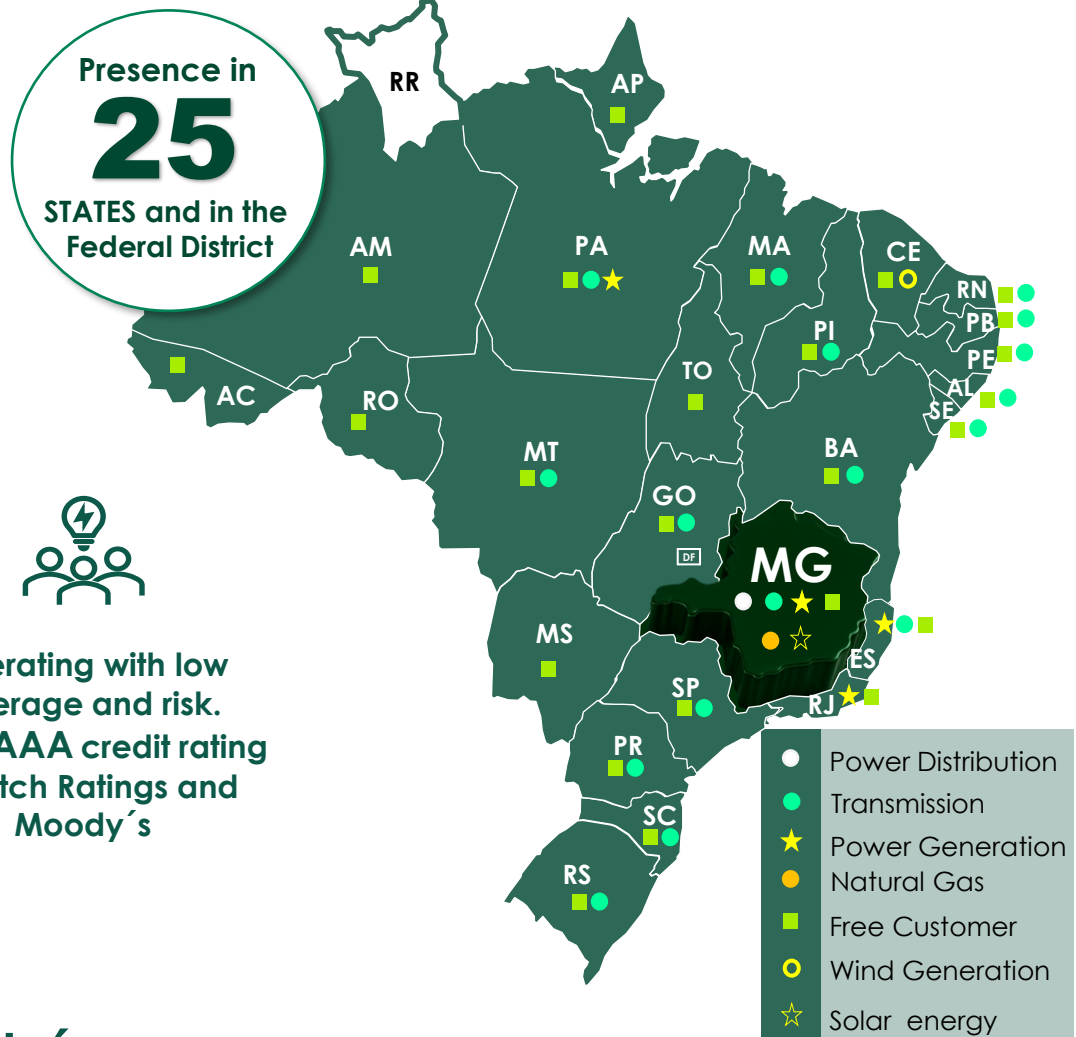

CEMIG OVERVIEW

Key Credit Highlights

1

CEMIG one of Brazil's largest utility companies, serving over 9.6 million customers

100% LEAN ENERGY SOURCES

Largest integrated electric power company with a growth-focused profile and driven by investments in regulated businesses

Verticalized platform with a balanced portfolio operating in Distribution, Generation, Trading and Transmission of electricity

Solid cash flow generation. Revenue predictability given disciplined financial profile

Operating with low leverage and risk. Local AAA credit rating by Fitch Ratings and Moody's

#

AAA* credit rating by Fitch Ratings and Moody's

* Local

Note: transmission assets outside the State of Minas Gerais belong to TAESA.

Integrated portfolio allowing to capture synergies and reduce risks

Generation

- 4.8 GW
- 82 Power plants

32

2

48

Transmission

- 5,066 km
- 42 substations
- 21.68% stake in Taesa - one of the controlling shareholders

Distribution

- 588,340 km - Grid
- > 9.6 million customers
- 774 municipalities
- Largest distribution concession
- End of the concession term 2045

Trading

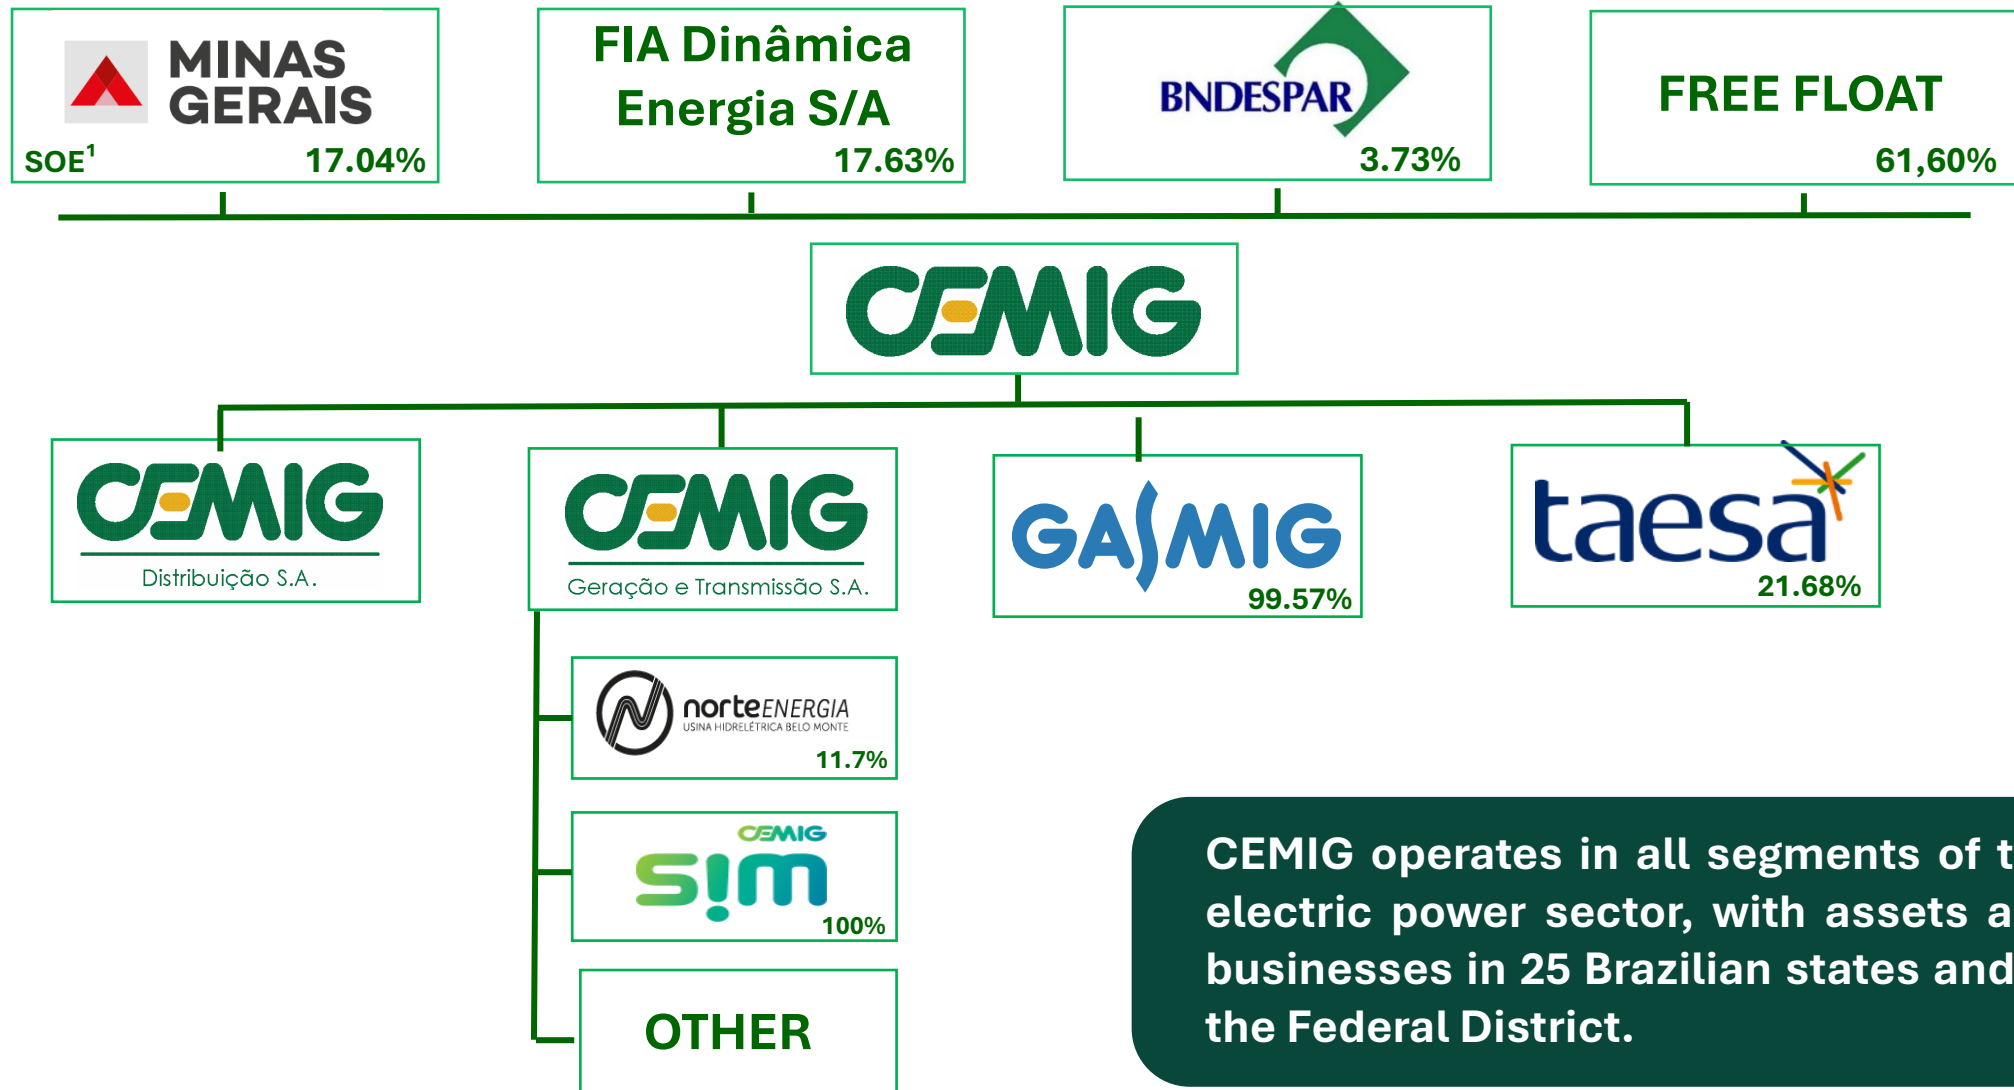

- Leader power trading to final clients
- 10,360 customer units

Natural Gas

- 110 thousand customers
- 46 municipalities
- 2.7 million m³
(Average daily volume)

Ownership Structure

CEMIG operates in all segments of the electric power sector, with assets and businesses in 25 Brazilian states and in the Federal District.

1 - State-Owned Enterprise: 50.97% of Common Shares

2 - Sete Lagoas Transmissora de Energia SA.

>9.6 Million

Customers Served

588,340 km

Grid

Largest Concession

Largest single distribution concession in number of customers, km of network and energy distributed

LARGEST CAPEX EVER IN CEMIG D HISTORY

(R\$ million)

Highlights of the investment plan for the cycle

- ✓ 127 new substations & Digitalization of 52
- ✓ Construction of 3,519 km of HV lines (138kV)
- ✓ Conversion of 30,000 km of single-phase networks to three-phase
- ✓ Installation of 1.25 million AMI smart meter units
- ✓ Construction of the Integrated Operations Center (COI)
- ✓ Implementation of 12 new energy storage projects
- ✓ Expansion of remote telecontrol in the medium-voltage network

Executed from Dec./22 to Dec./25: R\$ 12.2 billion
Investments to be recognized in the tariff review in May 2028

1 Q 26 (R\$m)

NUMBER OF PLANTS

- In Operation – **45**
- In Construction – **27**

INSTALLED CAPACITY

- In Operation – **171 MWp**
- In Construction – **102 MWp**

INVESTMENTS

- Over R\$277 million invested in the acquisition of photovoltaic plants since 2019
- Capex: R\$ 0.8 billion for the construction of solar plants (2026-2030)
- Asset restructuring (Dec.25): CemigSim kept 6 plants (27 MWp) and Comerc 5 plants (26,7 MWp)
- Acquisition (Dec.25): Purchase of the remaining stake in 2 plants and acquisition of 1 plant. Total 10 MWp

STRATEGY

Diversify the customer base, reaching over 200,000 clients by 2030

Investing R\$0.8 billion by 2030 to consolidate leadership in Minas Gerais

Excellence in portfolio management, aiming to maximize value creation

Assess opportunities for acquiring operational assets and leasing arrangements

Evolution of injected energy (GWh/year)

1 Q 26 (R\$m)

STRATEGY

Expanding the network to serve new regions of Minas Gerais

Investing R\$1.9 billion from 2026 to 2030

Increasing current network saturation; to expand client base (~50k new clients by 2030)

Ensure compliance with regulatory OPEX through digitalization and automation initiatives

KEY METRICS

Concession term: January 2053

Gas distribution concession for the entire state of Minas Gerais

CEMIG

APPENDIX

 TRANSFORMING LIVES WITH OUR ENERGY.

Distribution – Concession extended for 30 years

Concession contracts renewed for a further 30 years, from Jan/2016, **until dec/2045**

New concession contracts make distributors subject to efficiency requirements:

- ✓ Service quality
- ✓ Sustainability of economic and financial management

Transmission – Concession extended until 2043 (006/97)

The old transmission concessions, granted before the year 2000, were renewed as of January 1, 2013 in accordance with Law 12,783/13, where the assets belong to the Granting Authority and the Company is entitled to revenue, for the operation and maintenance of these assets.

Generation – Lote D - Concession extended - until 2046

Cemig GT won Lot D in the Auction, **18 plants** with installed capacity of 699.6 MW , in the amount of **R\$1.44 bn**

- ✓ 100% of the physical offtake guarantee to go to the Regulated Market from January 1 to December 31, 2016;
- ✓ as from January 1, 2017 this reduces to 70%.

Cemig GT files statement of interest in extending concessions of hydroelectric plants

Expire In 2027

Emborcação	Nova Ponte
499.7 MW _{average}	270.1 MW _{average}

Expire In 2026

Sá Carvalho
56.1 MW _{average}

GAS – Concession extended - until 2053

The execution of the Amendment assures Gasmig the extension of its concession term until 2053.

Granting bonus, in the amount of **R\$852 mn**

- **Rural clients** and **municipal districts** previously served by single-phase networks
- **11,597 km** built by 2025

MAIN NUMBERS (Forecast)

30,000

km: Conversion / construction of the rural 3-phase network in 2022–2027

R\$ 4.9

billion: investment

691

Municipal city halls already served by dual-voltage supply

CLIENT RELATIONSHIP

Exclusive client service channels;
"Cliente Mais"
and "Aproximação".

THE ENERGY TRANSITION

Expansion of the electricity system,
to meet new demands, replacing
diesel with electric, improving power
supply quality, and an 8.6% increase in
load compared to Dec/23 (+305 GWh)

INNOVATION AND ENERGY EFFICIENCY

Disseminate and encourage
Innovation and Energy Efficiency
projects to serve rural consumers.

PREVENTIVE MAINTENANCE

100% inspection of the network;
cleaning of power line pathways;
mobilization of additional
teams with new bases in
76 municipalities

NETWORK AUTOMATION

Installation of approx.
30,000 reclosers in
single-phase and
three-phase networks

NETWORK RESILIENCE

Reduction of travel time and
restoration of supply

OBJECTIVES

- More quality and reliability of supply
- **Develop the economy: Serve the suppressed market and future loads**

TARGET PUBLIC

- **All regions** covered in the **Mais Energia** program
- **Substation locations** in accordance with **integrated planning** of the electricity system
