

The background of the slide features a teal-tinted image of a wind turbine. The blades are visible, and the overall scene is dimly lit, creating a professional and modern aesthetic. A bright green circular logo with the word 'CEMIG' in white is positioned on the right side of the slide. Two horizontal lines, one yellow and one green, frame the central text area.

RESULTS

CEMIG

Certain statements and estimates in this material may represent expectations about future events or results which are subject to risks and uncertainties that may be known or unknown. There is no guarantee that events or results will occur as referred to in these expectations.

These expectations are based on the present assumptions and analyses from the point of view of our management, in accordance with their experience and other factors such as the macroeconomic environment, market conditions in the electricity sector, and expected future results, many of which are not under our control.

Important factors that could lead to significant differences between actual results and the projections about future events or results include Cemig's business strategy, Brazilian and international economic conditions, technology, our financial strategy, changes in the electricity sector, hydrological conditions, conditions in the financial and energy markets, uncertainty on our results from future operations, plans and objectives, and other factors. Due to these and other factors, our results may differ significantly from those indicated in or implied by such statements.

The information and opinions herein should not be understood as a recommendation to potential investors, and no investment decision should be based on the veracity, currentness or completeness of this information or these opinions. None of our staff nor any party related to any of them or their representatives shall have any responsibility for any losses that may arise as a result of use of the content of this presentation.

To evaluate the risks and uncertainties as they relate to Cemig, and to obtain additional information about factors that could give rise to different results from those estimated by Cemig, please consult the section on *Risk Factors* included in the *Reference Form* filed with the Brazilian Securities Commission (CVM) – and in the *20-F Form* filed with the U.S. Securities and Exchange Commission (SEC).

In this material, financial amounts are in **R\$ million** (R\$ mn) unless otherwise stated. Financial data reflect the adoption of **IFRS**.

## COMMITMENT TO EFFICIENT FINANCIAL AND OPERATIONAL MANAGEMENT

Net profit of **R\$ 1.1 bn** (Adjusted net profit up +62.7% QoQ)

A 1.34% increase in the volume of sold energy, especially with the recovery of the industrial activity in Cemig D's concession area

Cemig D – Captive clients + Transport (GWh)

Distributed Generation – Energy injected

**5.7%** of the total energy consumed in Cemig D's concession area

## Main initiatives

- ✓ Success index in client inspections, increasing from **27%** in 1H21 to **48%** in 1H22
- ✓ **230,000** obsolete meters replaced
- ✓ **150,000** conventional meters replaced by smart meters
- ✓ **15,000** clandestine connections regularized

“ Aim to continue achieving better levels than the regulatory parameters ”

Our Collection/Billing index ('ARFA') reached a record of 99.59% in May 2022, resulting from issuing receipts via **digital channels**.

Change in the collection mix reduced costs by **6.74%** in 1H22.

Management of default is still challenging, as Cemig works to comply with the regulatory coverage indices:

- ✓ **405,000** disconnections of supply in 2Q22 – **22.5%** more than in 2Q21
- ✓ Total disconnections expected in 2022: **1.9 million**

Conversion of irregular connections to billing generated revenue of **R\$ 56 mn** (**56%** more than in 2Q21).

Gasmig continues to deliver consistent results in 2Q2022

### Segments served | % of Volume in m<sup>3</sup>

### Natural gas volume sold | Million m<sup>3</sup>

“Gasmig supplies an average daily volume of 2.8 million m<sup>3</sup>”

## Achieved

- ✓ Opex within regulatory limit (annual base)
- ✓ Non-technical losses – reduction to regulatory level
- ✓ DEC within regulatory limit
- ✓ Liability management of Eurobonds
- ✓ Definitive solution for Renova
- ✓ Strengthen Cemig D's investment program

## Partially achieved

- ✓ Divestments of non-strategic assets
- ✓ Restructuring of retirement benefit plans
- ✓ Digital transformation

## In progress

- ✓ Renewal of concessions
- ✓ Investment in renewable generation sources (wind and solar)
- ✓ Growth of retail electricity sales
